## 1.7. Feedback

I welcome your feedback (good and bad) on this book. I tried to prepare it carefully; however, I'm human, and at some point I have to stop writing and tweaking. So, you may find some errors, inconsistencies, or subjects that could be described better. Your feedback will give me the chance to improve later editions.

The best way to reach me is by email. However, to avoid spam problems, I haven't included an email address inside this book. (I had to stop using the email address I put in the first edition after I started getting thousands of spam emails per day.) Please refer to the book's Web site, <http://www.cppstdlib.com>, to get an email address for feedback.

Many thanks.
